Level Up Your Future, Starting **HERE.**

The Game Development program at Newman University transforms your passion for gaming into an exciting career.

Our curriculum provides comprehensive training in programming, user experience, project management, and web design, empowering students to create innovative, immersive gaming experiences and excel in the dynamic digital entertainment industry.

The Game Development program includes online courses as part of the curriculum through Newman University's partnership with Rize Education. This partnership offers students cutting-edge curriculum, greater

scheduling flexibility, access to nationwide experts in the field, and access to even more resume-ready skills.

The gaming industry surpasses the combined size of music, TV, and film. This sector is also projected to reach an impressive market value of \$321 billion by 2026. At Newman University, our program is designed to teach you the latest tools and techniques used by top game developers — so you can join this fast-growing industry and build the career of your dreams.

IGDA Membership

Free student membership and mentorship with industry professionals, plus networking and internship opportunities.

Holistic Approach

Students acquire both programming proficiency and strong foundations in visual design and psychology for comprehensive skill development.

Career-Focused

Development of a robust portfolio showcasing practical game projects, providing strong employability both within and outside the gaming industry.
